About First 5 Mono

Research shows that a child's brain develops most dramatically in the first years of life and what parents and caregivers do during these years to support their child's growth will have a meaningful impact throughout life. Based on this research, California voters passed Proposition 10 in 1998, adding a 50 cents-per-pack tax on cigarettes to support programs for expectant parents and children ages 0 to 5.

Proposition 10 was designed to address the lack of public funding and support for early childhood development in the wake of a growing body of scientific evidence indicating that children's emotional, physical, social, and developmental environments have a profound impact on their ability to reach their greatest potential in school and to become productive members of society.

In 1999, the Mono County Board of Supervisors established the Mono County Children and Families Commission, also known as First 5 Mono County. The County receives \$350,000 each year in tax revenues and administrative augmentations. First 5 Mono County works with local organizations and individuals to improve family functioning, child development, and child health. For more information about the First 5 Mono County Commission, contact Molly DesBaillets at 760-924-7626.

The First 5 Mono County Commission is comprised of seven voting members:

Bob Gardner, Chair, Mono County Board of Supervisors (Chair)

Stacey Adler, PhD, Secretary, Superintendent of Schools (Vice Chair)

Jeanne Sassin, School Principal (Secretary)

Kristin Collins, DO, Pediatrician

Michelle Raust, Program Manager Child and Adult Services, Mono County Department of Social Services
